

Declaration and Confirmation of Installation - Distributed Generation ≤10kW

Please complete and submit this form to NTL before your generation installation is connected to our network.

SITE AND GENERATOR DETAILS				
Generator Site Address				
ICP Number (on your electricity bill)		0 0 0 0 0		NT
Electricity Retailer				
Date of Installation				
Distributed Generator				
Inverter Make & Model				
■ Serial number (required field)				
 Generator rating (kVA output) 				
Power factor (normal conditions)				
 Location of generator within installation 				
 Location of isolator 				
The installation complies with and will be operated in ac • Electricity Industry Participation Code 2010 Part 6 • NTL's Distribution Code (www.networktasman.co.nz) • Conditions of Connection for Distributed Generation			.nz)	Yes Yes Yes Yes
Owner's Declaration				
Generator owner and operator	Name			
Contact person	Name			
Postal Address or Email				
Telephone number	Daytime:	Mobil	le:	
I agree Schedule 6.2 of the Electricity Industry Participation Code 2010 Part 6 (Connection of Distributed Generation) "Regulated Terms for Distributed Generation" governs the contractual basis for connection of this plant to NTL's network, now and into the future, unless the parties mutually agree otherwise.				
Owners Signature:		Date:		

Declaration and Confirmation of Installation - Distributed Generation ≤10kW

Installer's Declaration				
The distributed generation complies with the relevant sections of AS/NZS3000 Electrical Installations	Yes □			
Protection Settings comply with AS4777	Yes □			
The installation complies with NTL's Distribution Code and Conditions of Connection of Distributed Generation	Yes □			
The distributed generation complies with the relevant sections of AS/NZS5033	Yes □			
Name of registered electrician certifying install				
Contact Person				
Address				
Phone Number				
Other Details/Comments				
Required Information (to be included with this form)				
Copy of circuit diagram (detailing inverter, isolation and fusing)	Attached □			
Generator Test Report	Attached □			
Protection Settings (if adjusted from factory default)	Attached □			
	Signature:			
Installer's Declaration	Date:
