

Network pricing summary: prices effective 1 April 2017

The prices in this summary schedule are used to charge electricity retailers in the region served by Network Tasman. Electricity retailers determine how to allocate this cost together with the energy, metering and other retail costs when setting the retail prices that appear in your power account.

There is no change from 1 April 2017 to Network Tasman's total price for the majority of consumers (ie, no price change for all customers with delivery capacity of less than 150kVA).

Understanding the table below: Most residential consumers and some small businesses (those who have supplies with a maximum delivery capacity of 15kVA) are Group 1 consumers. Group 2 consumers have a delivery capacity of between 20kVA and 150kVA.
