

Price schedule for Network Tasman: effective 1 April 2022

Network Tasman distributes electricity to connections in the Nelson-Tasman region, excluding central Nelson. The delivery prices in the table below cover the cost of our local distribution network and the cost of national transmission of electricity. These prices are used to charge electricity retailers. Electricity retailers determine how to package our charges together with the energy, metering and other retail costs when setting the retail prices that appear in your power account.

Discounts are credited directly to consumers' power accounts for eligible connections twice per year. The first discount will be calculated based on usage from 1 April 2022 to 31 August 2022. The second discount will be calculated based on usage from 1 September 2022 to 31 March 2023.

Understanding the table below:

All standard 15 kVA capacity connections for most residential and non-residential consumers are in one of three price categories: 1GL, 1RL and 1RS. Non-residential connections are Price Category 1GL. The 1RL category is for primary-residence low-use connections, ie consuming less than 8,000 kWh per year. The 1RS category is for residential connections that are not a primary residence or consume over 8,000 kWh pa.

Network Tasman Limited Pricing From 01 April 2022 to 31 March 2023

Table with columns: Price description, Price Code, Approx Connections with this price, Unit of measure, Distribution price, Transmission price, Pass through price, Delivery price, Discount, Distribution price, Transmission price, Pass through price, Delivery price, Discount.
